**RE: Notice of Intention to Drill - Correction
Johnson #11, Correct TWP to T31S from T32S**

Dear Mr. Lorenz:

Your Notice of Intention to Drill Form has not been approved and is being returned for the reason marked below:

- An intent location may be corrected only if the new location is in the same Section, Township, and Range as the original intent. Otherwise, a new intent must be filed with the KCC by the operator. The new intent must then be approved and issued a new API # by the KCC. Cancel the previous API # by checking the "Well Not Drilled - Permit Expired" box in the lower right hand corner of the original intent (copy enclosed) and return with the new intent form C-1 and surface pit application form CDP-1.

Rick Hestermann
