RE: LEASE: BARRIER 45  
LEGAL: 1980'FSL-2035'FWL 3-26S-08E  
COUNTY: GREENWOOD  
API NO: 15073240810000

Dear Mr. Jackson:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Barrier 45 well.

The original 365 days for closure expired June 12, 2009. This extension will expire September 1, 2009. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis  
Director

KANSAS CORPORATION COMMISSION

JUN 02 2009

Dear Sirs:

The above referenced well was spudded on 6/12/2008. According to K.A.R. 82-3-602, "Drilling pits ... shall be closed within a maximum of 365 calendar days after the spud date of a well". The subject drilling pits must be closed by 6/12/2009. A Closure of Surface Pit, form CDP-4 (April 2004), should be filed within 30 days after the drilling pits are closed. **Conservation division forms are available through our office and on the KCC web site: <http://kcc.ks.gov/conservation/forms/>**

Should an extension be warranted, it must be received by 6/12/2009. **TO FILE FOR AN EXTENSION, PLEASE SEND A COPY OF THIS LETTER WITH THE FOLLOWING INFORMATION COMPLETED:**

Date of location inspection by operator/agent: 31 May 2009, by Roscoe G. Jackson II  
Geologist and Co-Manager

Reason for extension: \*\*\* (PLEASE SEE BELOW)

Estimated period of time until pit closure: 90 days; before 1 September 2009.

**Failure to timely close the pit, file a request for an extension or file the closure form within the allotted time periods may result in assessment of an administrative penalty.**

Your cooperation in this process is appreciated. If you have any questions or concerns, please call **Sammy Flaharty** at (316) 337-6227.

\*\*\* Operator desires to retain drilling pits until #45 Barrier is completed. Due to adverse factors (SemCrude bankruptcy last July, plunging oil prices, a wet Spring), Operator has not completed well, but will do so before 1 September 2009. Operator's family owns the Barrier land; #45 Barrier is more than 2 miles from the nearest human habitation and is not in a Sensitive Groundwater Area.

Thank you,  
*Roscoe G. Jackson II* 1 June 2009
