RE: LEASE: MARTIN 1-27
LEGAL: 1640'FSL-622'FWL 27-08S-32W
COUNTY: THOMAS
API NO: 15193207320000

Dear Mr. Mitchell:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Martin 1-27 well.

The original 365 days for closure expired March 6, 2009. This extension will expire August 6, 2009. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis
Director

Attn: Sammy Flaharty

As per our telephone conversation on 5/1/09 – Hartman Oil Co is asking for an extension for pit closure on our Martin 1-27– do to said location is under the farmers (center pivot irrigation system) which did not allow for adequate time for pits to dry, during the dry summer months, along with excessive amounts of rain this early spring – We have hauled off servable load of water, but rain re-fills pit – I have attached a copy of the KCC letter of Notice of Violation 82-3-602

Should you have need of any more information please let me know, you can contact me @ (620) 277-2511 office or (620) 272-3988 cell

Thank you

Stan Mitchell
