LEGAL: 660'FSL-1320'FEL 15-33S-33W  
COUNTY: SEWARD  
API NO: 15175221330000

Dear Sir/Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Peters 2-15 well.

The original 365 days for closure expired March 13, 2009. This extension will expire September 30, 2009. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis  
Director

Dear Ms. Flaharty:

I am writing this letter to request an extension of time to submit a CDP-4 for the above referenced well.

Due to the location of the pit and the amount of rain we have had, the pit is full of water and we are unable to close it at this time. Please see attached for additional information and do not hesitate to contact me should you have any further questions. Thank you.
