RE: LEASE: MELISSA 1-29
LEGAL: 1970'FSL-4879'FEL 29-18S-29W
COUNTY: LANE
API NO: 15101221160000

Dear Ms. Larson:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Melissa 1-29 well.

The original 365 days for closure expired October 4, 2009. This extension will expire August 2, 2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis
Director

Subject: pit extension

Hi Steve. Is it snowing out there yet? According to the radar we are getting light snow but when I looked out an hour ago nothing was falling. If it misses us I won't mind. Anyway, I have received a request for an additional extension. The well and information are as follows:

Larson Engineering Inc.
Melissa 1-29
1970'FSL-4879'FEL 29-18S-29W
Lane County
15101221160000
Spud 10/04/08 pit extension expired 1/4/10

So that is the scoop. Let me know what to do. They state it is too wet to fill and they would like another 3 months to fill the pits.

Well, have a good day Steve and stay warm. That wind is brutal here. Take care.
Sammy

Pit Closure

Ladies and Gentlemen,

We pumped the Melissa 1-29 pits, but they are still not dry enough to backfill. We respectfully request another 3-month extension from the January 4th due date.

Sincerely,

Larson Engineering, Inc.

Carol Larson
Secretary/Treasurer
