RE: LEASE: TIDEWATER GOBIN 3
LEGAL: 2150'FSL-910'FEL 26-26S-13W
COUNTY: PRATT
API NO: 15151223100000

Dear Mr. Hoener:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Tidewater Gobin 3 well.

The original 365 days for closure expired August 23, 2009. This extension will expire July 29, 2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Do you know anything about this location. ok to give 6 mo. ext.?

Grant a 6 mo. extension.
Thanks Steve Pfeifer

Subject: additional pit extension

Hi Steve, Hope the weather is nice out there. It is overcast and drizzly here. I'm really tired of this dreary weather. I'm ready for some sunshine and warm days. Oh well, it's Kansas.

Well, I received a request for an additional extension of time in which to close pits from Ross Hoener, #4997. He states that rainwater has collected in the pits. I'm sure it never occurred to him that he could pump the pits out. Oh well. Anyway, the well is as follows:

Tidewater Gobin 3
2150'FSL-910'FEL 26-26S-13W
Pratt County
15151223100000
Spud 8/23/08 pit extension expires 2/23/10

That's all I have for you as of right now. With a little luck we will escape any more. Have a good weekend Steve.

Sammy

I am writing to you to see if it would be possible for an extension on the Tidewater Gobin #3 as we got some rainwater that has collected in the pits.

Sincerely

Ross Hoener
