RE: LEASE: JEANETTE 1-13

LEGAL: 1920'FSL-2238'FEL 13-31S-01W

COUNTY: SUMNER

API NO: 15191225190000

Dear Ms. Wooten:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Jeanette 1-13 well.

The original 365 days for closure expired October 18, 2008. This extension will expire June 4, 2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis Director

> RE: Sparks OWWO 1 Jeanette 1-13

Dear Ms. Rains::

I received your Notices of Violation dated November 30th on the above referenced wells. I am enclosing the Closure of Surface Pond Form for the Sparks OWWO1, that pond has been closed. Regarding the Jeanette 1-13, I have checked with our field superintendent and that pit is still open. There is still some water in the pond, but he is going to have a contractor make a slit, so that the water will drain and begin crowding the pond. We would like to ask for an extension, but intend to have the pond closed as soon as possible.

12/3/09 Thank you for all your help!

Called mindy worten and

Left message on voice mail,

Told her cutting a slit to trace

fluids was not and option,

They would have to truck

fluids out, feft name and

MSW/tom phone TT

enclosure

Sincerely,

**American Energies Corporation** 

Mindy Wooten

Subject: pits

Hi Jeffy and Steve! Hope you're enjoying this cold weather. I must admit I wouldn't wish to be out in the field on a day like today. As is, my hubby is down in Dist 3 deer hunting. I've had to do the morning feeding chores and it ain't been fun! Breaking ice on the water has been a mess. I asked him where the stock tank heater is in that mess of a shop of his and he told me he didn't think I could find it out there. I know better than to pray for strength because I would beat him to death. I pray for patience and acceptance instead. You men will drive us women crazy.

Anyway, I'd better get down to business. Well, I got a letter from American Energies Corporation and it is dated Nov. 23, 2009. We didn't get it till yesterday. They may have already done what they said they were going to do in the letter. I did call Mindy Wooten late yesterday afternoon and left a message on her voice mail not to do it. The well is the Jeanette 1-13,N2SWNWSE of 13-31S-01W of Sumner county, API 151-191-22519-0000.

The letter states: Regarding the Jeanette 1-13, I have checked with our field superintendent and that pit is still open. There is still some water in the pond, but he is going to have a contractor make a slit, so that the water will drain and begin crowding the pond. They are asking for an extension as well on these pits.

So I hope all is well with you guys and you can check this out before they get the slits cut. As I said, I did call Mindy Wooten and tell her not to do it. Have a great day and a greater weekend. Sammy
