Dear Sir/Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Schreiner 2 well.

The original 365 days for closure expired January 26, 2008. This extension will expire June 8, 2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

  
Doug Louis  
Director

Steve, How are you out there in cold Western Kansas where the wind blows free. I guess you're sending us a storm for tonight. I don't look forward to driving on it. It is not my favorite thing. Oh well, Winter had to come sometime.

Anyway, the well needing an additional extension is as follows:

R & B Oil & Gas Inc.  
Schreiner 2  
2310'FNL-330'FEL 14-32S-10W  
Barber County.  
15007231140000  
Spud 1/26/07 pit extension expired 10/20/09

They state they would like to have 6 months as it is too wet. They also state they have crowded the pits some. So there you have it. Let me know what you think. Thanks Steve.  
Sammy
