COUNTY: LANE
API NO: 15101221330000

Dear Mr. Canaday:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Walker 1-21 well.

The original 365 days for closure expired October 21, 2009. This extension will expire June 3, 2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

A handwritten signature in black ink that reads "Doug Louis". The signature is written in a cursive style with a large, prominent "D" and "L".

Surface Pit Closure Extension

Dear Ms. Rains:

The subject pit was pushed in and partially filled in August 2009. It was not completed at that time because parts of the drilling pit were not dry enough. Wet weather prevented the remaining closure in the proper time frame. This is a request for a 6 month extension to complete the drilling pit backfill/closure. Thank you.

Very truly yours,

G. M. Canaday,
President
