RE: LEASE: WIELAND UNIT 4-21
LEGAL: 3445'FSL-140'FEL 01-13S-16W
COUNTY: ELLIS
API NO: 15051256270000

Dear Ms. Ward:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Wieland Unit 4-21 well.

The original 365 days for closure expired May 17, 2008. This extension will expire June 23, 2009. We urge you to make every effort to close these pits within this time frame. **In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure.** Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis
Director

Re: Pit Extensions

Please find attached requests from Citation Oil & Gas Corporation requesting additional extensions for pits on the Wieland Unit in the NE and SE/4s of 1-13S-16W. Please send someone out to visually inspect the lease. The landowner has expressed concerns about damage to the land. Jonelle looked up the spills and found there to be numerous spills on the lease. She said the aerial view of the section shows a lot of white salt scars. So Please send someone out to double check this lease for pit extensions and damage to lease. The wells where pit extensions are requested are as follows:

Wieland Unit 6-12

Ellis County, KS

Dear Ms. Rains:

Per rule K. A. R. 82-3-602(a), Citation is requesting an extension to the 365 day pit closure from spud rule in order to properly close the drilling pit at the Wieland Unit 4-21 well location until November 30, 2008. The current extension on this well expires on August 31, 2008.

The area around the pit location received 10" of rain last week and has not dried up enough to back fill. Mr. Marvin Mills, KCC inspector has seen this pit.

If you require additional information to process our request, please contact the undersigned, at 281-517-7309. Thank you.

Sincerely,

A handwritten signature in black ink that reads "Sharon Ward".
