RE: LEASE: ALPERS 2-19
LEGAL: 2078'FSL-983'FEL 19-22S-11W
COUNTY: STAFFORD
API NO: 15185235020000

Dear Ms. Davis:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Alpers 2-19 well.

The original 365 days for closure expired January 31, 2009. This extension will expire April 9, 2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis
Director

Subject: Additional pit extension

Hi Steve, is it wet enough for you? We're about to float away here.

Anyway, American Warrior sent in a request for an additional pit extension. They state the pit has been worked on but it lays in a low area along a creek bed and the pit is full of water. The well is as follows:

Alpers 2-19
2078'FSL-983'FEL 19-22S-11W
Stafford County
15185235020000
Spud 1/31/08 pit extension expired 7/30/09

So let me know what you think on this one. Thanks for your help.
Sammy

RE: Extension for Closure of Pit

- Alpers 2-19
- API #015-185-23,502
- Stafford County, KS

To Whom It May Concern,

I visited with our contractor this morning on the above-referenced well. He informed me that the pit has been worked on; however, the pit is laying in a low area along a creek bed and the pit is full of watter.

I am requesting at this time for a 6 months extension of time (until 1-30-10) to close the above-referenced pit(s). If you would have a question, please contact me at 620-275-2963.

Sincerely,

Nancy E. Davis
Compliance Coordinator
