RE: LEASE: SCHRAEDER 1
LEGAL: 690'FSL-1100'FWL 24-23S-24W
COUNTY: HODGEMAN
API NO: 15083215660000

Dear Mr. White:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Schraeder 1 well.

The original 365 days for closure expired August 19, 2009. This extension will expire January 19, 2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

A handwritten signature in black ink that reads "Doug Louis".

Re: Schraeder #1
API# 15-083-21566
Section 24-23S-24W
Hodgeman County, Kansas

Dear Jonelle:

I would like to request an extension of time to get the pits filled on the referenced location.

The bottom of the pits is in rock so it has been difficult to get them to dry completely. Just last week we pumped water from the reserve pit, crowded one side and cut some windows to try and help it dry out. If we have some dry weather I think this job will be able to be completed in the near future.

Thank you for your consideration of this request.

Sincerely,

White Exploration, Inc.
