RE: LEASE: EHMKE 2-29  
LEGAL: 350'FNL-1785'FEL 29-18S-29W  
COUNTY: LANE  
API NO: 15101220930000

Dear Ms. Larson:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Ehmke 2-29 well.

The original 365 days for closure expired April 25, 2009. This extension will expire March 21, 2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis  
Director

Pit Closure

Dear Sammy,

Thank you for returning my call regarding an extension on the closure of drilling pits for this well.

Due to unusually wet weather in that area, the pits are still wet. With September looking like it's also going to be wet, we respectfully request a 6-month extension from the August 31<sup>st</sup> due date.

I apologize for the delay in getting this to you. Our return from vacation was unexpectedly delayed.

Sincerely,

Larson Engineering, Inc.

Carol Larson  
Secretary/Treasurer
