Dear Mr. Smith:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Keenan 1 well.

The original 365 days for closure expired June 20, 2009. This extension will expire March 14, 2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis  
Director

Dear Sir/Madam:

We are requesting an additional 120 day extension on the 09/20/09 deadline to fill the above referenced pits, due to the excessive moisture received in this area. I've enclosed a copy of the initial notice for reference.

If there is any problem or question, please contact me at the above #. Thank you.

Sincerely yours,

Kurt L. Smith  
Exploration Manager
