API NO: 15185235060000

Dear Mr. Stalcup:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Olvier Batman 2 well.

The original 365 days for closure expired February 29, 2009. This extension will expire April 14, 2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis  
Director

Hi Steve, I received a letter from Globe Operating Inc. requesting an additional extension on a well. The letter states the field has been planted in corn and irrigated all season. As soon as the corn is cut they will dewater and close the pit as soon as possible. They request a 3 month extension. They did receive a notice of violation for not closing the pit in time.

The well is as follows:

Oliver Batman #2  
675'FNL-2243'FEL 28-21S-13W  
Stafford County  
15185235060000  
Spud 2/29/08 pit extension expired 8/1/09

Let me know what you want to do Steve. Thanks for your help.

Sammy
