RE: Workover Pit Closure  
Anderson SWD 1  
NW NW Section 1-20S-2W, McPherson Co.

Dear Ms. Haynes:

The above referenced well was not plugged, although a plugging application and surface pond application were filed. It was decided to MIT the disposal well, which passed the MIT test on 7/11/07, and was returned to active status. Therefore, no surface pond was ever used.

Thank you for all your help and consideration.

Sincerely,

Mindy Wooten
