RE: LEASE: FARTHING 1
LEGAL: 2240'FSL-1150'FEL 32-26S-06E
COUNTY: BUTLER
API NO: 15015237450000

Dear Mr. Jervis:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Farthing 1 well.

The original 365 days for closure expired August 29, 2008. This extension will expire February 4, 2009. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis
Director

Subject: Pit Extension

Hello Sammy!

I just got through talking to Duane and he says the pit extension that Range Oil Company is asking for on the Farthing #1, Sec. 32-26-6E, API 15-015-23745-0000, is ok to approve. Range asked for an extension until February 4, 2009, and Duane said that should be enough time for the pit to completely dry.

Duane also inspected a pit for Cornish Oil Company on the Jones #1-8, SE SW SE, Sec. 8-28-6E, Butler Co. API 15-015-23754. Cornish has closed the working pits, and have started pushing in the reserve pit. The pit gets a lot of shade from a tree line and not much sun, so Duane said they should get a 6 month extension. I told Duane that David Cornish needs to submit in writing a request for the pit extension.

Have a good one and please try and stay out of trouble!

Jeff

RE: #1 Farthing
API # 15015237450000
Section 32-26S-6E
Butler County, Kansas

Dear Sammy:

As per our conversation today, I am writing to inform you that the reserve pit on the above-captioned well still has not been backfilled. In order to speed things up our pumper pumped out the pit last week so it should finally start to dry out. Therefore, I am requesting that the KCC grant us an extension until February 4, 2009 in order to properly close this pit.

Thank you for working with us.

Very truly yours,

Range Oil Company, Inc.

David T. Jervis
