Dear Mr. Thrower:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Ray 22-2 well.

The original 365 days for closure expired September 22, 2008. This extension will expire July 23, 2009. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis  
Director

Dear Mr. Louis:

We received your letter dated September 29, 2008, granting an extension of time in which to close drilling pits on the referenced well. We have, on several occasions since that date, had dirt contractors on location to "crowd" this pit but to date we have not seen sufficient drying that will allow total closure. Additionally, our completion of this well has been delayed for more than a year due to a title dispute that is nearing resolution.

We are now moving ahead with our completion and will make every effort to close the pit as soon as conditions allow. I am, therefore, requesting another extension from your office, requested with my assurance to you that the closure of this pit will be done as soon as possible.

Please let me know if you have any questions.

Sincerely,

REDLAND RESOURCES, INC.
