COUNTY: ELLIS  
API NO: 15051255840000

Dear Mr. Scheck:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Dinkel 1 well.

The original 365 days for closure expired October 31, 2007. This extension will expire July 21, 2009. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis  
Director

Dear Madam,

In response to your letter dated July 3, 2008 concerning the above cited wells and our failure to close the surface drilling pits (FORM CDP-4), I submit the following reason for failure to do so.

Due to the continuing rains and snow throughout the time interval, the pits are still wet and holding some water. These pits cannot be closed and the ground restored until the pits and ground are completely dry.

Rest assured that we check the pits often and will backfill them when they are completely dry.

In view of these facts, I would like to request a continuing extension of time.

Respectfully yours,

Timothy Scheck
