Dear Ms. Austin:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the GSL 2 well.

The original 365 days for closure expires January 1, 2009. This extension will expire April 1, 2009. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Spud Date January 2, 2008

Dear Sammy,

I am writing to request an Extension of Closure for the Drilling Pits for the above referenced well. These pits were supposed to be filled back to Ground Level by January 2, 2009

We have had an excess amount of rain this year, so do to weather conditions, we have been unable to close these pits by the scheduled time.

Enclosed is a copy of the Application for Surface Pit - Form CDP-1, of the above referenced well. We would appreciate an extension for closure, and as soon as weather permits, these pits will be filled back in to ground level, and a Pit Closure - Form CDP-4, will be filed with the KCC.

If you have any questions, please call 785-434-2286. Thank you for your time concerning this matter.

Sincerely,

Connie Jo Austin  
Agent for The Bill Bowman Oil Company
