RE: LEASE: A GLASSMAN 1-16
LEGAL: 1870'FNL-1140'FWL 16-13S-32W
COUNTY: LOGAN
API NO: 15109207960000

Dear Mr. Williams:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the A Glassman 1-16 well.

The original 365 days for closure expired December 26, 2008. This extension will expire April 6, 2009. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis
Director

Re: **Closure of Surface Pit Extension**
A. Glassman #1-16, API #15-109-20796
Logan County, Kansas

Dear Sammy:

Shakespeare Oil Company, Inc. requests that we be granted an extension to close the surface pits on this dry hole location. The pits are still too wet to effectively reclaim.

If you require additional information, please contact me at 618-548-1585 or email me at don@shakespeare-oil.com.

Very truly yours,
Shakespeare Oil Co., Inc.

Donald R. Williams
Vice President

Sammy,

The A. Glassman 1-16 is the correct well API #15-109-20796. I submitted the wrong well previously. I was told that the pits were finished but later was told they needed more work. Sorry for the error. We do need an extension.

Don

Subject: pit extension

Don, in reviewing the records for the A. Glassman #1-16 I found that a pit closure form was submitted stating the pits were closed March 27, 2008. Please review your records for the well and double check to see what the status of the pit is. Sometimes invoices from dirt work contractors come in when a pit is squeezed and the staff assumes the invoice is for closing the pit. So, please double check on the pits and let me know if indeed an extension is needed. The api# for the well is 15-109-20796-0000 and it is located in section 16, township 13S, range 32W of Logan County, Kansas. Thanks you for your attention to this matter.
Sammy
