RE: LEASE: WIELAND UNIT 4-16  
LEGAL: 3605'FSL-1074'FEL 01-13S-16W  
COUNTY: ELLIS  
API NO: 15051255280000

Dear Ms. Ward:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Wieland Unit 4-16 well.

The original 365 days for closure expired September 5, 2007. This extension will expire August 31, 2008. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(c). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

A handwritten signature in black ink that reads "Doug Louis". The signature is written in a cursive style with a large initial "D".

**Subject:** Pit Extensions

Good Morning Sammy

I checked the pits for Citation Oil on the Wieland Unit 4-16 and found that it still has water in the bottom and needs to wait to back fill I will keep an eye on it for you ok?

Thanks Marv

Re: Pit Closure Extension Request  
Wieland Unit 4-16  
API 15-051-25528  
NW SE NE Sec. 1-13S-1614W  
Ellis County, KS

Dear Ms Rains:

Per rule K. A. R. 82-3-602(a), Citation is requesting an extension until August 31, 2008 to close the drilling pit at the Wieland Unit 4-16 well location. The current extension will expire on May 20, 2008.

The pit location for the Wieland Unit 4-16 lies in a bottom topographical area and continues to prove a poor area for drying. Citation has been dewatering the pit, but with the rain that has fallen this year the pit has not dried up enough to back fill in and close.

If you require additional information to process our request, please contact the undersigned, at 281-517-7309. Thank you.

Sincerely,

Sharon Ward  
Permitting Manager  
Citation Oil & Gas Corp.
