RE: LEASE: CORNWELL 1
LEGAL: 70'FNL-1330'FEL 30-23S-13W
COUNTY: STAFFORD
API NO: 15185233900000

Dear Mr. Morton:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Cornwell 1 well.

The original 365 days for closure expired September 30, 2007. This extension will expire August 11, 2008. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(c). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis
Director

RE: Notice of Violation -82-3-602
Cornwell -1
30-23-13W
Stafford, Kansas
API-15185233900000

Dear Sammy

As per our phone conversation, I'm requesting an extension to close the pits on the Cornwell 1. Due to the very large amount of rain and snow that we have received, we have not be able to close the pits in a proper manner. Water has been hauled from the pits on 2 occasions, but before the pits were properly dried, more rain was received. At the present time, the berm has been knocked down in places and pits have been crowded to allow the pits to dry.
We request a 120 day extension.

Should you have any questions or need more information please contact Jim Morton at 620-791-7187

Thank You

Jim Morton
