RE: LEASE: RANDLE 2
LEGAL: 1650'FSL-1650'FWL 05-26S-14W
COUNTY: PRATT
API NO: 15151222450000

Dear Mr. Montague:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Randle 2 well.

The original 365 days for closure expired October 16, 2007. This extension will expire August 11, 2008. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(c). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis
Director

RE: Closure of Drilling Pits
API # 15-151222450000

Dear Ms Flaharty:

We are requesting an extension for the closure of drilling pits for the Randle Lease, Well No. 3. It is located in the SW NE SW of Section 5-T26S-R14W, Pratt County, Kansas. With the farmers irrigation system last fall and the weather being so wet in this part of the state, the drilling pits have not had a chance to dry out in order to be backfilled and leveled completely. We are monitoring them regularly for the opportunity to get them restored. Fields and Sons have been working on them as the conditions permit.

We are requesting an additional 90 days to get the situation completed.

Thank you for your help with this matter.

Yours truly,
KNIGHTON OIL COMPANY, INC.

David D. Montague
Geologist
