Was an artificial liner used? Yes No

If no, how were the sides and bottom sealed to prevent downward migration of the pit contents?

Abandonment procedure of pit:
 The pit was closed upon completion of wellwork at the site. Very little, if any, fluids were placed in the pit - only sand. During abandonment of the pit, the protective fencing was removed, then the pit was backfilled and packed with the spoil pile.

The undersigned hereby certifies that he / she is Regulatory Compliance Supervisor for ExxonMobil Oil Corporation (Co.), a duly authorized agent, that all information shown hereon is true and correct to the best of his /her knowledge and belief.
