Date of closure: 11-25-09

Was an artificial liner used? Yes No

If no, how were the sides and bottom sealed to prevent downward migration of the pit contents?

Pit contents were loaded by water truck as fluid was circulated from the well, until cement was flowing out. Didn't see a need for a liner, as salt water wasn't allowed to set in the pit.

Abandonment procedure of pit:

Filled in dirt that was excavated to make pit.
