RE: LEASE: STEINER C-1
LEGAL: 330'FSL-1815'FEL 04-18S-13W
COUNTY: BARTON
API NO: 15009252340000

Dear Mr. Ash:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Steiner C-1 well.

The original 365 days for closure expired July 11, 2009. This extension will expire September 6, 2009. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis
Director

Re: Closure of Drilling Pits
STEINER Lease Well No. C-1
S2SWSE 4-18S-13W
BARTON County, Kansas
API No. 15009252340000

Dear Sirs:

The above referenced well was spudded on 7/11/2008. According to K.A.R. 82-3-602, "Drilling pits ... shall be closed within a maximum of 365 calendar days after the spud date of a well". The subject drilling pits must be closed by 7/11/2009. A Closure of Surface Pit, form CDP-4 (April 2004), should be filed within 30 days after the drilling pits are closed. **Conservation division forms are available through our office and on the KCC web site:** <http://kcc.ks.gov/conservation/forms/>

Should an extension be warranted, it must be received by 7/11/2009. **TO FILE FOR AN EXTENSION, PLEASE SEND A COPY OF THIS LETTER WITH THE FOLLOWING INFORMATION COMPLETED:**

Date of location inspection by operator/agent: 7-16-09

Reason for extension: Seasonal rains of fresh water have the site pits standing with too much water for proper filling.

Estimated period of time until pit closure: 60 day from date of inspection.

Failure to timely close the pit, file a request for an extension or file the closure form within the allotted time periods may result in assessment of an administrative penalty.

Your cooperation in this process is appreciated. If you have any questions or concerns, please call **Sammy Flaharty** at (316) 337-6227.

Re: Closure of Drilling Pits
STEINER C#1 (API 15-009-25234-0000)
S2 SW SE 4-18S-13W, Barton Co., KS.

Mr. Louis/Ms. Rains:

Please find this letter to give notification to the KCC office that the above referenced pits will have not been closed prior to the deadline date of 7/11/2009 as instructed by K.A.R. 82-3-602.

Preparation has been requested by the assistance of Langfeld Dirt Service of Ellinwood, KS. (620-564-2795) for the closure of said pits, however, on site inspection (July 6, 2009) indicated that additional time would be necessary for completion.

With the upcoming July and August heat temperature we are confident that these months would assist us with accomplishing our task within a 60 day window should the KCC allow for an extension on these pits.

Please hereby allow this letter update to represent our request of extension for closure of the subject pits, the CDP-4 filing and for your (KCC) consideration to this matter.

Thank you for your time and assistance in regard to this matter and should you need to visit or communicate immediately, please call either phone numbers provided at your earliest convenience.

Respectfully,

William Ash
