RE: LEASE: OSAGE 100  
LEGAL: 760'FNL-2100'FEL 30-33S-14W  
COUNTY: BARBER  
API NO: 15007225690001

Dear Ms. Maxfield:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Osage 100 well.

The original 365 days for closure expired February 20, 2007. This extension will expire October 15, 2009. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

  
Doug Louis  
Director

RE: Pit closure for Osage No. 100

Dear Ms. Rains:

I am writing to request that the pit closure deadline for the Osage No. 100 (API ~~15-007-23227~~ <sup>15007225690001</sup>) be extended. A small amount of water has remained in the pit that has prevented it from being closed. Measures are being taken to speed up the drying out process. We anticipate that the pit will be closed by the end of August.

Please call me at 620.664.9622 if you require additional information.

Sincerely,

A handwritten signature in black ink, appearing to read 'Brooke Maxfield'.

Brooke Maxfield  
Geological Technician II
