RE: LEASE: TARN 1
LEGAL: 560'FSL-1610'FWL 06-17S-01E
COUNTY: MARION
API NO: 15115213760000

Dear Ms. May-Murray:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Tarn 1 well.

The original 365 days for closure expired August 9, 2008. This extension will expire July 31, 2009. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

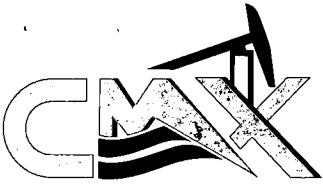

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis
Director

RE: Weibert #2 Drilling Pit Closure & Tarn #1 Drilling Pit Closure
API No. 15-115-21377-0000 (Weibert #2) 15-115-21376-0000 (Tarn #1)

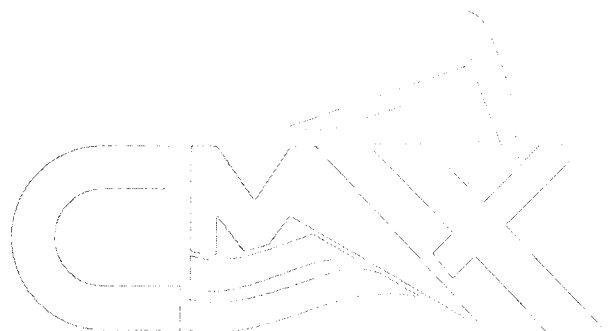

Dear Sammy & Jonelle:

This letter is in response to your Notice of Violation regarding the above mentioned leases. We are requesting an extension for filling this pit. We have inspected the lease and the pit still has standing water and is not ready to be filled in. We have even tried other methods of getting the fluid off more quickly to no avail. Due to the amount of moisture, recent snow and rain please extend our permit for 6 months. Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Donna L. May-Murray".

Subject: RE: Pit inspections for additional pit extensions

Sammy sorry this slipped by me I had actually sent information to Jonelle Rains about these pits on 4/27. I not sure what the reason they need the extension for. I was just by these leases again yesterday and noticed the pumping unit had been pulled off of the Weibert #2. Also Metro Energy has a new well location in the section just south of these 2 leases off the same county road. Metro has been in and closed its pits in the last week or 2. So I don't see why CMX has not been able to close their pits by now. CMX pits are open and unfenced inside of pasture ground that is currently being grazed. If you have any more questions let me know. Cell : 316-295-9629

Subject: Pit inspections for additional pit extensions

Shane, I received a request for pit extensions from CMX Inc. The pits had previous extensions and are in need of additional extensions. The leases are as follows:

Weibert 2
1905'FNL-1365'FWL 07-17S-01E
Marion County
15115213770000
Spud 8/13/07 pit extension expired 2/13/09

Tarn 1
560'FSL-1610'FWL 06-17S-01E
Marion County
15115213760000
Spud 8/09/07 pit extensions expired 2/9/09

Please inspect these pits and let me know if they should have additional extensions and the duration of those extensions. Your help is appreciated. Thanks.
Sammy
