RE: LEASE: HORTON-MCCLASKEY 1
LEGAL: 3630'FSL-990'FEL 09-35S-02E
COUNTY: SUMNER
API NO: 15191225160000

Dear Ms. Rogers:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Horton-Mcclaskey 1 well.

The original 365 days for closure expired October 5, 2008. This extension will expire July 7, 2009. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(c). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis
Director

CONSERVATION DIVISION
WICHITA, KS

Dear Mr. Van Gieson,

Sentinel drilled the Horton-McClaskey #1 in October 2007. We have had a dozer work on closing the related drilling pit several times but due to so much rain over the last number of months, we have been unable to complete the pit closing.

Therefore, Sentinel herewith requests a nine (9) month extension of time to close the pit so that the ground can be allowed to dry out enough to let us get the job done. I have enclosed a copy of this letter and a stamped envelope for your convenience in replying. Thank you.

Yours truly,

[Signature]
