RE: LEASE: STEINERT A 6
LEGAL: 2310'FNL-1320'FEL 32-17S-10W
COUNTY: ELLSWORTH
API NO: 15053212070000

Dear Sir/Madam:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Steinert A 6 well.

The original 365 days for closure expired August 14, 2008. This extension will expire November 14, 2008. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(c). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis

This letter is to inform you that I have not been able to close the surface pit on the Steinert A#6 (API # 15-053-21207-0000) due to the weather conditions. I realize the surface pit was to be closed by 8/13/08, but have not been able to get the pit dry enough to close it up. The pit was scheduled for closure this past week until the precipitation began in our area again and caused this to be canceled. Please accept this letter for an extension on the closure of the surface pit.

If you have any questions please contact me at 620-793-2026. Thank you in advance for your time in this matter.

Sincerely,

Gary L. Kirmer
