LEGAL: 1980'FSL-660'FEL 23-14S-13W  
COUNTY: RUSSELL  
API NO: 15167234290000

Dear Mr. Robinson:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Flickenger ET Al 1A well.

The original 365 days for closure expired May 22, 2008. This extension will expire August 31, 2008. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(c). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis  
Director

Re: Closure of Drilling Pits  
FLICKENGER ET AL Lease Well No. 1A  
NESE 23-14S-13W  
RUSSELL County, Kansas  
API No. 15167234290000

Dear Sirs:

The above referenced well was spudded on 5/22/2007. According to K.A.R. 82-3-602, "Drilling pits ... shall be closed within a maximum of 365 calendar days after the spud date of a well". The subject drilling pits should have been closed by 5/21/2008. A Closure of Surface Pit, form CDP-4 (April 2004), should be filed within 30 days after the drilling pits are closed. **Conservation division forms are available through our office and on the KCC web site: <http://kcc.ks.gov/conservation/forms/>**

Should an extension be warranted, it must be received within 14 days of the date of this letter. **TO FILE FOR AN EXTENSION, PLEASE SEND A COPY OF THIS LETTER WITH THE FOLLOWING INFORMATION COMPLETED:**

Date of location inspection by operator/agent: \_\_\_\_\_

Reason for extension: PLEASE SEE ATTACHED LETTER

Estimated period of time until pit closure: ASAP AS WEATHER PERMITS

**Failure to timely close the pit, file a request for an extension or file the closure form within the allotted time periods may result in assessment of an administrative penalty.**

Your cooperation in this process is appreciated. If you have any questions or concerns, please call Sammy Flaharty at (316) 337-8227.

Dear Sirs,

In reference to the above listed location, we have been unable to close these pits due to the almost continuous rain in that area since the test was completed. We actually have two locations in this area which we have had a lot of trouble closing due to the weather. The other location is the Laubhan 2A in Russell County NE SW SW 7-14S-12W API#15167234000000.

Kenny's Construction Co. out of Wilson, Kansas, who does our pit work, is but a few miles from these pits and has checked them periodically to see if they are cured and ready to be filled. For verification, Kenny may be contacted on his cell phone at 785-658-7001.

We would appreciate an extension of time on both of these pits. As soon as the rain stops and the summer heat moves in, they should cure pretty fast.

Sincerely,

  
Jim Robinson
