COUNTY: NESS
API NO: 15135245770000

Dear Ms. Davis:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Delaney 1-23 well.

The original 365 days for closure expired December 28, 2007. This extension will expire June 28, 2008. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(c). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

RE: Extension of Closing Drilling Pits

- Delaney 1-23 (NW/4 23-19s-22w – Ness County, KS)
API #015-135-24,577

To Whom It May Concern:

The Pit Closure date on the above-referenced well expired on December 28, 2007. After talking to our contractor today, he said that the pit is still wet. He stated that the ground consists of some weird clay and it is not drying out like it ought too. After talking to the contractor, I would like to ask for a 6 months extension on this pit closure. Please give us until June 28, 2008 to close this pit.

If you have any questions, please call me at 620-275-2963.

Sincerely,

Nancy E. Davis
