Dear Mr. White:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Ash 1 well.

The original 365 days for closure expired March 28, 2008. This extension will expire September 25, 2008. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(c). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

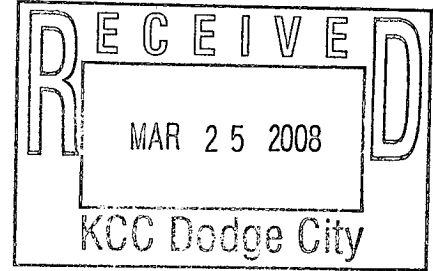

Very sincerely yours,

Dear Jonelle:

Per our telephone conversation this morning, I would like to request an extension of time to get the pits filled on the referenced location.

As I had mentioned before, the bottom of the pits is in very hard rock so it has been difficult to get them to dry completely. It is my understanding that part of the job has been done but they have not been filled completely. I also think my dirt contractor dropped the ball and could have had this done by now.

I am visiting with the dirt contractor this morning and I will get this job completed as soon as possible.

Thank you for your consideration of this request.

Sincerely,

White Exploration, Inc.
