COUNTY: ELLSWORTH
API NO: 15053211920000

Dear Mr. Bodine:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Worl A 1-28 well.

The original 365 days for closure expired December 8, 2007. This extension will expire December 26, 2008. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(c). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis
Director

With reference to the Worl A #1-28, please accept this letter as a request to extend the pit closure deadline of August 5, 2008. At this time, our efforts have allowed all pits to be closed except the reserve pit. Our efforts will continue to close the reserve pit; however, we would greatly appreciate your consideration in extending the current deadline. Following your review, we will await your response. Thank you.

Sincerely,

Steve Bodine
