Re: Lease: SCHNEWEIS 3
Legal: SWSESW 6-17-9W
County: ELLSWORTH
API NO: 15053211900000

Dear Sir or Madam:

This letter is to inform you that you have been granted an additional extension of time in which to close the drilling pits associated with the drilling of the SCHNEWEIS 3 well.

The original 365 days for closure expired 12/2/2007. This extension will expire 8/29/2008. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the closure of surface pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(c). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Dear Ms. Flaharty,

Previously we have discussed this producing location and the requirement to close the pits. You granted us an extension until March 2, 2008 to complete this job and we planned to do that.

In phone conversations today Mrs. Bessie Dewurff of L D Drilling, Great Bend, Kansas, has confirmed that the pits have not been closed and in a phone conversations with the field people was told that the location now has water from snow, rain and runoff and still can not be worked.

It is respectfully requested that you grant another 90 days to complete this job. Surely we will be able to get enough dry time to get this out of the way.

Sincerely,

M. Stuart Kirk
