Mr. D. C. Lilley  
Field Supervisor  
State Corporation Commission  
800 Bitting Building  
Wichita, Kansas

Dear Sir:

Attached you will find three copies of the map of the North Fairport Salt Water Gathering System, with the leases to be served by the system outlined by hash-marks. We regret that this map was omitted from original application.

SESWNE The North Fairport SWD #1, which will serve this system, is located 1614.7' west of the East line and 2207' south of the North line of Section 29, T11S, R15W, (The location was checked and certified by W. R. Sloan, Russell County Engineer). The surface lease surrounding the well comprises approximately two acres located as follows:

Beginning at a point 968' east and 383' north of the center of Section 29, T11S, R15W, thence north for a distance of 349', thence east a distance of 250', thence south a distance of 349', thence west a distance of 250' to the point of beginning.

This location was secured from Mrs. Gertrude Booth Gilbert and her husband, L. L. Gilbert, after we were unable to secure lease and easement to drill a disposal well on the Urith S. Abbott property. This well on the Abbott property, which was to have been located approximately NE NW SE, 29, 11S, 15W, will not be drilled, since the Mrs. Gertrude Booth Gilbert's property will adequately serve the system.

/s/ D. W. Smith
