RE: Well Plugging Application

Dear Madam or Sir:

I have enclosed an application to plug a well in Bourbon County. Please let me know as soon as possible if I can plug it. I was unaware of the change in rules for plugging in the Chanute district, so I apologize for any mistakes I may have made or the sense of urgency. We are cementing another well on July 7 so we will have all the equipment near the well we are plugging and would like to get it done the same day if possible. Thank you.

Sincerely,

Lawrence A. Weis

Dear Operator:

This letter is to notify you that the Conservation Division has received your plugging proposal, form CP-1, for the above well and has reviewed the proposal for completeness. The central office will now forward your CP-1 to the district office listed below for review of the proposed plugging method. **Please contact the district office for approval of your proposed plugging method at least five (5) days before plugging the well, pursuant to K.A.R. 82-3-113(b). If a workover pit will be used during the plugging of the well it must be permitted. A CDP-1 form must be filed and approved prior to the use of the pit in accordance with K.A.R. 82-3-600.**

The Conservation Division's review of form CP-1, either in the central or district office, does not include an inquiry into well ownership or the filing operator's legal right to plug the well. This notice in no way constitutes authorization to plug the above well by persons not having legal rights of ownership or interest in the well.

This notice is void after January 2, 2011. The CP-1 filing does not bring the above well into compliance with K.A.R. 82-3-111 with regard to the Commission's temporary abandonment requirements.
