Dear Sirs,

It has come to my attention that the above-mentioned well location was reported 660' FNL & 660' FEL, on both the C-1 & ACO-1. At some point the spot location was moved to 990' FNL & 165' FEL and the well was drilled and plugged.

I am writing to correct the records, since this location is no longer on SOLAR.

Thank you for your time.

Sincerely,

A handwritten signature in cursive script, appearing to read "Susan Schneweis".
