Permit No. 15-047-21527H

Dear Kathy:

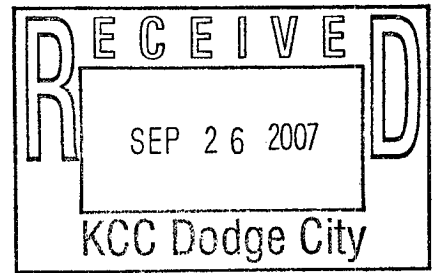

McCoy Petroleum is requesting an additional extension in closing the haul-off pit associated with the above referenced well. McCoy's first extension of only 2 months, expired on September 21, 2007. Visual inspection of the pit indicates it is still too wet to close. This is due to the extremely wet spring that was encountered in this area. In light of this condition, McCoy requests that you grant an additional extension of at least 120 days but preferably 6 months. McCoy is monitoring this pit and will have it closed as soon as it is feasible to do so. Please contact me if you have any questions.

Very truly yours,  
MCCOY PETROLEUM CORPORATION

Vice President of Production

Kathy,

We would like to have an exception, due continued rain fall, we are unable to get in to fill the pit. It will be at least late summer before we can complete the work.
