Were: Clean well to TD and cement from bottom to top.

Plugging Proposal Received by:

Duane A. Sims

Plugging attended by Agent: All XXX Part _____

TECHNICIAN

None

Operations Completed: Hour: _____ Day: 12 Month: 3 2009

Actual Plugging Report: Well had cement 1' down and was under power lines. All the other wells in project like this well had about an 50' top plug, an 50' plug around 550' and an bottom plug. So we decided not to drill this one out and replug it because of the cost of shutting the power lines down and moving them so the drill rig could drill the top plug out to get down to the middle plug.
