API NO: 15191228390000 *15-191-22539-00-00 KCCap*

Dear Mr. Mans:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Crowe 8 well.

The original 365 days for closure expired July 1, 2009. This extension will expire September 30, 2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis
Director

Subject: additional pit extensions

Hi Steve, How the heck are you? Just when we thought Spring was coming they are predicting snow for this Saturday. Well, it's Kansas, what can I say?

Well, I received a request for extensions on two wells from AGV Corporation. The wells are located in Sumner County and are as follows:

Crowe 8
330'FNL-990'FEL 30-31S-02W
15191228390000
Spud 7/1/08 pit extension expired 3/16/10

Thompson 8
370'FSL-2010'FWL 07-32S-03W
15191225250000
Spud 04/17/08 pit extension expired 3/16/10

They say the weather is too wet to fill the pits. They state they have hauled water off several times. Anyway, let me know what you think.

I don't know if this will be my last request to you or not before I retire. I just wanted to tell you thanks for all the help down through the years. It has been appreciated. I know some of this has been a pain in the patootie. I guess it's all in a days work at the KCC. Take care Steve. Enjoy the summer when it gets here.

Sammy

RE: Closure of Drilling Pits
Lease: Crowe #08
Legal: NW NE NE Sec 30-31S-2W
County: Sumner
API NO: 15191225390000

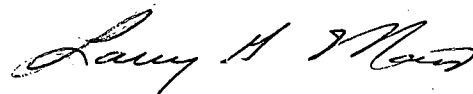

Dear Sir,

AGV Corp. is asking for an extension to close referenced pits.
Date of location inspection: March 13, 2010

Reason for extension: Drilling mud not dry. We have hauled the
water off several times but the wet weather has kept it from drying.

Estimated period of time until pit closing: 180 days

Sincerely,

Larry G. Mans
