API No. 15-023-20,313

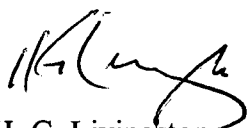

Dear Mr. Hemmen:

Thank you for discussing with the 1-point tests on the subject wells. At this time, we would like to request a two week extension from the due date of July 11, 2010. We have contacted our field supervisor to shut in these wells for a minimum of 72 hours in order to obtain a shut in pressure, after which we will pump them in order to run the 1-point test.

We appreciate your consideration of this request and assure you these tests will be performed and filed with the Kansas Corporation Commission as quickly as possible.

Yours truly,

PRIME OPERATING COMPANY
