SUBJECT: 2nd CDP-4 filed on following location
Blackstone #1-1
SW NE SE NW
Sec 1-T31S-R35W (1970' fnl, 2304 fwl)
Stevens County, Kansas
API # 15-189-22687-00-00

Enclosed please find the CDP-4 for the above Stevens County location. This is a second CDP-4 filed for this location, here is the reason why: The original form, sent in on 16 February, 2010 was filed when Berexco was invoiced for dirt work at said location and the statement "Location Restoration Complete" was printed at the bottom of that invoice. In addition, a letter from the contractor indicated that this was "final restoration work on the referenced location" and that the work was completed 04 December, 2009 accompanied the invoice.

Just last week, Berexco received another letter from the contractor, saying that work was completed 21 August, 2010, which represented the final restoration work on the referenced location. I called our Foreman, Greg Klaus, and he explained that there was a reserve pit off-site, which was not fully restored until 21 August, 2010. This pit was not in the usual position in order to avoid interference with an irrigation sprinkler system. It has now been closed and the site fully restored. I have enclosed copies of the pertinent documents in case they are helpful in understanding this anomaly. I leave it to you to decide whether to retain both CDP-4 forms or discard the earlier filing in favor of the latter.

Should you find anything lacking or incomplete, please advise me at your convenience.

Sincerely,

Richard Smith
