Date of closure: 9/13/2010

Was an artificial liner used? Yes No

If no, how were the sides and bottom sealed to prevent downward migration of the pit contents?

Bottom of pit was native clay and sealed by fresh native and drilling mud product. All standing salt fluids were vacuumed and hauled to our lease disposal.

Abandonment procedure of pit:

All fresh and salt fluids vacuumed, pit allowed to natural dry and backfilled with native dug soil from original digging of said pit.

The undersigned hereby certifies that he / she is Larry Hale, owner for L.D. Hale (Co.),
a duly authorized agent, that all information shown hereon is true and correct to the best of his /her knowledge and belief.

Signature of Applicant or Agent

Subscribed and sworn to me on this 17 day of September
