Surface owner information can be found in the records of the register of deeds for the county, and in the real estate property tax records of the county treasurer.

If this form is being submitted with a Form C-1 (Intent) or CB-1 (Cathodic Protection Borehole Intent), you must supply the surface owners and the KCC with a plat showing the predicted locations of lease roads, tank batteries, pipelines, and electrical lines. The locations shown on the plat are preliminary non-binding estimates. The locations may be entered on the Form C-1 plat, Form CB-1 plat, or a separate plat may be submitted.

Form Returned: Well Plugging Application, CP-1 form
Lease: Dietz 2
API: 15-167-21547-0000

Dear Operator:

The enclosed CP-1 form, received September 3, 2010, is being returned to you as it is incomplete due to: noncompliance with the Kansas Surface Owner Notification Act (KSONA) and a discrepancy with the location of this well. This form cannot be processed due to the following problem(s):

- A KSONA-1 form was not submitted with the enclosed form
- A discrepancy exists between the spot location and the footages listed on the CP-1. The spot of SWNWSE cannot be correct if the footages of 1650 S / 2310 E, as listed on the CP-1 form, are correct. Please determine the exact location of this well and make the necessary corrections on the CP-1 form. *Initial and date the changes you make to the plugging application form.*

You must RESUBMIT the CORRECTED, ORIGINAL CP-1 form, along with a completed ORIGINAL KSONA-1 form and a copy of this memo in full compliance with the items checked above. Again, your plugging application has not been approved at this time. Please contact Maggie Marcotte at (316) 337-6108 with any questions regarding these requirements.

Sincerely,

Marjorie Marcotte

Dear Operator:

This letter is to notify you that the Conservation Division has received your plugging proposal, form CP-1, for the above well and has reviewed the proposal for completeness. The central office will now forward your CP-1 to the district office listed below for review of the proposed plugging method. **Please contact the district office for approval of your proposed plugging method at least five (5) days before plugging the well, pursuant to K.A.R. 82-3-113(b). If a workover pit will be used during the plugging of the well it must be permitted. A CDP-1 form must be filed and approved prior to the use of the pit in accordance with K.A.R. 82-3-600.**

The Conservation Division's review of form CP-1, either in the central or district office, does not include an inquiry into well ownership or the filing operator's legal right to plug the well. This notice in no way constitutes authorization to plug the above well by persons not having legal rights of ownership or interest in the well.

This notice is void after April 10, 2011. The CP-1 filing does not bring the above well into compliance with K.A.R. 82-3-111 with regard to the Commission's temporary abandonment requirements.
