KCC MICHITA

I declare u	nder penalty of perjury under the laws of	the state of Kansas that I am authorized to request					
		e operator D.R.Lauck Oil Co.Inc.					
and that the for	regoing pressure information and statem	ents contained on this application form are true and					
correct to the b	est of my knowledge and belief based upo	on available production summaries and lease records					
of equipment in	stallation and/or upon type of completion	or upon use being made of the gas well herein named.					
I hereby red	quest a one-year exemption from open flo	w testing for the Breitenbach B#1 Gas Well					
_	grounds that said well:	C-SE-NE Sec.5-25S±16W Edwards Co. API# 15-047-20,055					
(Che	eck one)						
	is a coalbed methane producer						
	is cycled on plunger lift due to water is a source of natural gas for injection into an oil reservoir undergoing ER is on vacuum at the present time; KCC approval Docket No

	Signature:	Melvin & Ulban					
		Production Supt.					

Instructions:

If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under **OBSERVED SURFACE DATA**. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption **IS** denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form must be signed and dated on the front side as though it was a verified report of annual test results.
