I declare under penalty or perjury under the laws of the exempt status under Rule K.A.R. 82-3-304 on behalf of the ope and that the foregoing information and statements contained the best of my knowledge and belief based upon gas production and/or of type completion or upon use of the gas well he I hereby request a permanent exemption from open flow test gas well on the grounds that said well: (Check one)	on this application form are true and correct to tion records and records of equipment installatein named.
is a coalbed methane producer is cycled on plunger lift due to water is a source of natural gas for injection into is on vacuum at the present time; KCC app X is incapable of producing at a daily rate in o	proval Docket No
Date: December 13, 2004	
Signature:	H four bident

Instructions:

All active gas wells must have at least an original G-2 form on file with the conservation division. If a gas well meets the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to obtain a testing exemption.

At some point during the succeeding calendar year, wellhead shut-in pressure shall be measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under "observed surface data." Shut-in pressure shall thereafter be reported yearly in the same manner.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than thirty (30) days after the taking of the pressure reading. The form must be signed and dated on the front side as though it was a verified report of test results.
