			For Comm	nission						CHECK	07			

I declare under penalty or perjury under the laws of the state of Kansas that I am authorized to request						
exempt status under Rule K.A.R. 82-3-304 on behalf of the operator Lobo Production, Inc.						
and that the foregoing information and statements contained on this application form are true and correct to						
the best of my knowledge and belief based upon gas production records and records of equipment installa-						
tion and/or of type completion or upon use of the gas well herein named. Armstrong 2-6						
I hereby request a permanent exemption from open now testing for the						
gas well on the grounds that said well:						
(Charle and)						
(Check one) is a coalbed methane producer						
is a coalbed methanic producer is a coalbed methanic producer is a coalbed methanic producer is a coalbed methanic producer.						
is a source of natural gas for injection into an oil reservoir undergoing ER						
is on vacuum at the present time; KCC approval Docket No						
is incapable of producing at a daily rate in excess of 150 mcf/D						
Date:12/23/99						
Signature: John Scellers						
Title:Owner/Operator						

Instructions:

All active gas wells must have at least an original G-2 form on file with the conservation division. If a gas well meets the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to obtain a testing exemption.

At some point during the succeeding calendar year, wellhead shut-in pressure shall be measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under "observed surface data." Shut-in pressure shall thereafter be reported yearly in the same manner.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than thirty (30) days after the taking of the pressure reading. The form must be signed and dated on the front side as though it was a verified report of test results.
