		A Comment of the Comm	
I declare under penalty or perjury under the laws o	f the state of Ka	nsas that I am authorize	ed to request
exempt status under Rule K.A.R. 82-3-304 on behalf of th	e operator <u>Lo</u>	bo Production,	Inc.
and that the foregoing information and statements cont			
the best of my knowledge and belief based upon gas p	roduction record	is and records of equipr	nent installa-
tion and/or of type completion or upon use of the gas w	ell heréin name	d.	
I hereby request a permanent exemption from open fl	ow testing for the	Dallman-Reams	1-10
gas well on the grounds that said well:		\$: }	
(Check one)	• •		
is a coalbed methane producer		\$	
is cycled on plunger lift due to water		· ·	. 18
is a source of natural gas for injection	n into an oil resi	ervoir undergoing ER	i i
is on vacuum at the present time; K	CC approval Do	cket No.	
\overline{X} is incapable of producing at a daily t	ate in excess of	150 mcf/D

Instructions:

All active gas wells must have at least an original G-2 form on file with the conservation division. If a gas well meets the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to obtain a testing exemption.

At some point during the succeeding calendar year, wellhead shut-in pressure shall be measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under "observed surface data." Shut-in pressure shall thereafter be reported yearly in the same manner.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than thirty (30) days after the taking of the pressure reading. The form must be signed and dated on the front side as though it was a verified report of test results.
